CERTIFICATE

This is to certify that the project report titled **"STRAY DOGS AND CATS"** is the bona fide work of **SWATHI VK (230021081047)**, a student of **KMM College of Arts and Science**, undertaken in partial fulfilment of the requirements for the award of the degree **Bachelor of Computer Appliaction** from **Mahatma Gandhi University** during the academic year **2025-2026**.

The project work has been thoroughly reviewed and approved, as it meets the academic standards and fulfils the requisite criteria prescribed for the successful completion of the degree program.

Ms.Nihal **Ms. Deepa V A**

(Project Guide) **(Head of the Department)**

DECLARATION

I hereby declare that the project report entitled **"STRAY DOGS AND CATS"** has been completed under the guidance of **Ms.Nihal**, and submitted to the Department of Computer Science, **KMM College of Arts and Science, Thrikkakara**, in partial fulfillment of the requirements for the award of the degree of **Bachelor of Computer Application**. This report is an authentic record of my original work and has not been submitted for the award of any degree at this university or any other university.

Date:

Place: Thrikkakara **SWATHI VK(Regno:230021081047)**

ACKNOWLEDGEMENT

It is a great privilege to present my project, **"STRAY DOGS AND CATS"**. First and foremost, I express my sincere gratitude to **God Almighty** for His countless blessings, guidance, and strength throughout this endeavor. I take this opportunity to extend my heartfelt thanks to **Dr. Sabana Backer, Principal of KMM College of Arts and Science**, for his unwavering support and encouragement. My deepest appreciation goes to **Ms. Deepa V A, Head of the Computer Science Department**, for her invaluable guidance and motivation. I am profoundly grateful to **Ms.Nihal**, my project guide, for her continuous support, insightful advice, and valuable suggestions, which played a pivotal role in the successful completion of this project. Furthermore, I extend my sincere thanks to all the **teaching and non-teaching staff** who have directly or indirectly assisted me throughout this journey.

A special note of appreciation goes to my **parents**, whose moral support and encouragement have been my greatest source of strength. Lastly, I extend my gratitude to my **friends**, with whom I shared my experiences and received valuable suggestions that significantly enhanced the quality of my work.

SWATHI VK

SYNOPSIS

The Stray Dogs and Cats Management System is a web-based application developed to efficiently manage the rescue, treatment, care, and adoption of stray animals. The main aim of this project is to create a centralized platform that connects users, veterinarians, and animal care centres, ensuring better coordination and faster response in handling stray dogs and cats. This system helps in reporting stray animals, maintaining their medical records, scheduling veterinary appointments, and supporting the adoption process in an organized manner.

The project is developed using the Django framework with Python as the backend technology. It consists of various modules such as user management, veterinary management, care centre management, pet management, appointment scheduling, adoption management, and a chat system for communication between users and vets. Each module plays an important role in handling different activities related to animal care and management.

By digitizing the entire process, the system reduces manual work, minimizes errors, and improves data accuracy. It also ensures proper tracking of rescued animals and their treatment details. Overall, this system provides an efficient and user-friendly solution for improving animal welfare and supporting organized stray animal management.
